Back cover: Chloe Stewart – Australian Open Champion, Aaron Teys – World Champion of Champions, Carla Krizanic – Commonwealth Games Gold Medallist, Wayne Ruediger – World Champion, Jesse Noronha – 10 Nations Gold Medallist.

2018/19 marks a milestone in Henselite's history. We have been in the business of making lawn bowls for over one hundred years.

Over the past century we've been driving change and setting the standard in the lawn bowls industry.

Henselite's history of success is underpinned by a passion for design, engineering and precision together with a desire to keep raising the bar in the sport we all know and love.

Over 100 years ago, Henselite changed the face of lawn bowls with the introduction of the rubber bowl which was more accurate and precise than the previous bowls made of wood.

Then again in 1930, Henselite re-set the standard and revolutionised the sport with the invention of the composite plastic bowl. This brought about the beginning of the modern game of lawn bowls, a highly accurate game of precision and consistency.

In 1946 Henselite was first to introduce heavy weight bowls which have now become the standard around the world. Grips, which are now standard on almost 90% of bowls – were first added to bowls by Henselite. Other standards which we now take for granted were

also introduced by Henselite – high precision production machinery, engraved bowls, balance testing and plastic jacks, to name a few.

Coloured bowls, narrow biases, coloured clothing, barefoot bowls, quick grass and synthetic greens. The shape of the sport is very different now to 100 years ago.

We have produced over 8 million bowls here in Australia. Our bowls, including Australia's most popular and successful bowl, the Dreamline XG, set the standard for precision, versatility, comfort and performance. They are the choice of club, state, national and international bowlers.

Henselite bowls have been used by **5 of the last 7 Men's Australian Open Singles Champions**. In the UK, our bowls have won **more World Indoor Singles Titles over the last 10 years than any other brand**. At the 2018 Commonwealth Games, **12 of the 25 Gold Medals** presented were won with Henselite bowls.

We are very proud of our products, proud of our history and our contribution in shaping the sport of lawn bowls over the past 100 years.

We hope that lawn bowlers will enjoy using our bowls, clothing and accessories for the next 100 years and beyond.

- Mark Hensell, Managing Director.

Dreamline XG

Bowls
Bias
Trajectory

THE PROVEN WINNER

The world-class Dreamline XG is both Australia and New Zealand's favourite and most trusted bowl. A great all-round bowl, Dreamline XG is the choice of National, World and Commonwealth Games Champions like Aaron Wilson, Aron Sherriff, Carla Krizanic, Rebecca Van Asch and Jo Edwards. Comfort in the hand, maximum stability and a predictable line make it so versatile. It's at home on all surfaces from North to South and East to West, even in the windiest of conditions.

Dreamline XG is characterised by a constant arc with a holding finish to the head, providing the ultimate in comfort, stability and consistency for all bowlers from social to competitive and elite level. Dreamline XG's material density combined with a fine-tuned shape allows it to maintain momentum

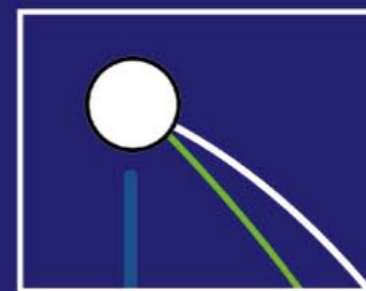

Dreamline XG
CRUZE

for better performance on drives and weighted shots. Henselite's best selling bowl is available in a range of popular core colours and regularly updated limited edition variations. Now featuring contemporary large engravings, the Dreamline XG is the ultimate all-rounder.

"I've been using Dreamline XGs for five years and they are great all-round bowls that perform well in all conditions. I've used XGs to win club, national and international titles and I always know they will give me the best possible chance of success."

- Aaron Wilson, 2018 Commonwealth Games Gold Medallist

The Henselite **Cruze** model is the perfect complement to the Dreamline XG when playing on fast greens. Adding a set of Cruze to their kit will give bowlers the edge when playing on a quick surface where a narrower line and a flat finish is required.

Detail view

This chart represents the comparative difference between each model of bowl. To be used as a guide only. This chart is compiled as an average of testing in slow green and testing table conditions.

CRUZE

FOR FAST GREENS

With a similar comfort in the hand to the world class Dreamline XG, and the same winning performance - the Cruze has been engineered for accuracy and precision **on greens running at over 16 seconds**. Cruze has been developed by bringing together the expertise of coaches, world champions, designers and engineers. The result is the ultimate bowl for fast greens. Perfect for dormant tiff greens and ideal for free running synthetics. The innovative faceted grip provides a non-slip, comfortable hold for a natural delivery. Cruze is available in a range of popular colours.

Tiger Series.

Since its introduction in 2004, the Tiger Series has been used by seven different players to win 11 World Indoor Singles titles.

Tiger

A full-biased model bowl with a predictable confident line and a contemporary holding finish. A supremely stable bowl, the ergo profile provides superior hand comfort and perfect control. Highly suited to seconds, thirds and skips as they require a bowl that has a relatively strong finish to draw round short bowls. Recommended for slower greens, the Tiger is used widely throughout South Africa, Canada, USA and the UK.

Tiger II

The narrowest bowl in the Tiger range. It has a stable, predictable line with a holding finish and offers bowlers a great range of potential shots. The indoor model mostly in demand by elite players in the UK, the Tiger II is a great bowl for outdoor greens and has been extremely popular and successful on the slower greens in NZ and on the faster greens of South Africa, Canada, USA and the UK.

Tiger Pro

Tiger Pro has a mid-bias line with a holding finish that is perfectly suited to the modern competitive game. It is at home on a variety of green speeds and surfaces, from slow to medium outdoor greens as well as artificial surfaces. The Tiger Pro is a favourite of representative players in the UK & Europe at Club and International level.

Tiger Evo

Developed in partnership with World Champion bowlers, the Evo bias line is the mid-point between the popular Tiger and Tiger Pro. Looking to find that perfect road to the jack, it is ideal for a full range of shots. Suitable for all indoor and outdoor surfaces.

Classic.

The original Henselite Classic bowl revolutionised the sport and went on to become the most successful and best-selling composition bowl ever. A trusted and proven performer for over 50 years.

Classic TRL

The latest evolution, the Classic TRL, is a full-bodied bowl with a stable, predictable line. With a traditional hook finish, it is an excellent wide-drawing bowl for the slowest, holding greens and slow-paced artificial surfaces. The Classic TRL enjoys enormous popularity and success today in the UK, South Africa and the USA.

Classic II

A full-bodied, mid-bias bowl with a trusted, traditional "hockey stick" finish. Its line is narrower than the Classic TRL and the finish is less pronounced. It will still draw around bowls in cluttered heads on heavier greens but also performs well on slightly faster greens. A full-fit profile provides stability on windy days. This bowl is well suited to bowlers who require a consistent and precise draw in a mid-bias bowl.
